Usher Gallery
Art at The Collection

Danes Terrace, Lincoln LN2 1LP

The Lincolnshire Artists' Society is delighted to be able to return to The Usher Gallery.

Our last showing here was in 2019, which seems a very long time ago! We are emerging from an extraordinary, difficult period. This occasion invites welcome celebration of the collective creativity and commitment of all of our members and additionally the efforts of many others who work tirelessly to support cultural activity.

We live in challenging times and we need to marshal hope and enthusiasm for our future. Human expression is an important part of this undertaking. Every time the most ancient art is found, more earlier work is located. Engagement with art is important. It makes us pause and reflect a little. It can invite us to become more mindful, to feel and think. Creativity is part of our essence, in many shapes and forms.

Successful collaborative endeavours can be amongst our finest achievements and LAS is certainly a testament to that. The size of our membership is, in fact, one of its greatest strengths. Exhibitions are frequently diverse and full of different individual perspectives on the world. The range of subject and content is always fascinating and it is a privilege to take part in the selection process. The society began in 1906 and it is still going strong,

regularly gathering new members, maintaining a healthy committee/officer turnaround and generating exhibition opportunities. All of this takes enthusiasm and passion!

At the close of this year the amazing Phil Bowman will step down as our chair and we welcome in the equally amazing Anne Wood as our new chair. Our thanks and best wishes go out to Phil, who has gone above and beyond in order to steer us steadily through the choppy waters of the past two years. His work for LAS has been extensive; we are all indebted to him for his exhibition officer term too. ... More time for painting Phil! Enjoy.

Also special thanks need to go to Clive Redshaw for his fantastic substantial, ongoing, work involving selection communication and material. Also our gratitude goes to Geoff Matthews for his exacting and skilled catalogue input this year. Thank you both.

So, let's all move forward into a bright creative future with purpose and hope.
